Project management: Agile, Scrum, sprint planning, Kanban, risk management

Stakeholder and training support: Stakeholder communication, facilitator coordination, participant onboarding, event logistics

Reporting and administration: Participant records, attendance tracking, documentation, progress updates

Digital tools: Trello, Notion, Jira, Slack, Google Workspace, Microsoft Office, Figma, Canva

Technical skills: HTML, CSS, WordPress, basic frontend development, PHP, SQL

Languages: English (fluent), Yoruba (native)

PROFESSIONAL EXPERIENCE

Migration Advisor | Programme Coordination

Sep 2025 to Aug 2026

Nigerian German Centre for Migration and Development (GIZ), Benin City, Nigeria

Centre implemented by GIZ, providing migration advice, skills development and employability training.

- Coordinated scheduling and delivery of 11 ICT and vocational skills trainings per cohort, with 50 participants per batch, 2 or more batches per training and a 95% on time delivery rate, working with facilitators and a team of 8 to 10 advisors.
- Delivered 10 monthly migration information sessions of two days each, reaching over 150 participants per session, and referred participants to suitable training.
- Maintained 150+ participant profiles, attendance records and programme documentation to support progress tracking and reporting.
- Handled participant registration and profiling, including signed code of conduct agreements and required onboarding information.
- Resolved scheduling and workflow issues between advisors, administrative staff and facilitators, keeping onboarding and training referrals on schedule.

Project Coordinator and Frontend Developer

Oct 2024 to Apr 2025

Next Switch, Ibadan, Nigeria

Software development and IT consulting firm.

- Coordinated tasks across a design and development team of 2 to 4 people, tracking progress and raising blockers to support timely delivery.
- Built a user registration website for a training cohort of over 100 participants and for the eMerge conference, replacing a manual registration and tracking process.

- Used task boards and Excel sheets to keep project status visible and follow up actions on track.
- Supported online training delivery and contributed to digital content and team collaboration.

Frontend Designer and Client Project Lead
CloudWare Technologies, Ibadan, Nigeria

Feb 2018 to Jun 2023

Information technology firm. Part time alongside studies from 2021.

- Coordinated 10+ client website projects, balancing priorities and keeping clients informed from brief to handover.
- Designed and developed websites using Agile methodologies, from clarifying requirements to implementation and client review, maintaining on time delivery across client projects.
- Worked with stakeholders to refine requirements, organise tasks and act on feedback.
- Ran usability checks and gathered client feedback to catch issues before handover.
- Maintained project activity tracking and related administrative and budget documentation.

EDUCATION

B.Sc. Computer Science Education
Olabisi Onabanjo University, Nigeria

2021 to 2024
